Oluwagbenga Orotunji

Frontend Engineer

With over 6 years of experience as a **Vue.js** Developer, I am dedicated to creating elegant and functional user interfaces. I have a proven track record of efficiently translating design mockups into interactive web interfaces, optimizing performance, and enhancing the user experience. Collaboration is a key strength of mine, as I thrive in team environments. I actively contribute to brainstorming sessions and work closely with colleagues to ensure project goals are met effectively and efficiently. I am committed to staying up-to-date with the latest advancements in **Vue.js**, actively engaging in industry forums, and attending conferences. This allows me to leverage the latest tools and techniques to continuously improve my development skills and deliver cutting-edge solutions.

Proficiency in **version control systems** such as Git, as well as **SCM** tools like GitHub, GitLab, and Bitbucket, ensures that I can effectively manage code repositories and collaborate seamlessly with other team members.

Work History

2024-03   **Frontend Engineer (Contract Staff)**
BuySimply

- Built a user interface with authentication functionality.
- Implemented responsive design to ensure optimal user experience across various devices (desktop, mobile, tablet).
- Proficient in learning new concepts quickly and efficiently

2024-05   **Frontend Engineer**
Trift-To-Win

- Built a user interface with authentication functionality.
- Implemented responsive design to ensure optimal user experience across various devices (desktop, mobile, tablet).
